## March President's Letter

**F**irst and foremost, I hope all our Sleepy Hollow neighbors are safe and well. We are all learning to live in the time of the Corona Virus, and for some it is more difficult than for others. Please reach out for help when you need it or volunteer to help each other when you can. Every day we hear of more acts of kindness and generosity among us, and I feel very grateful to live in such a responsive and responsible community. If you would welcome help getting groceries or meds to your doorstep, or if you can help a Sleepy Hollow neighbor, please visit [shhahelps@gmail.com](mailto:shhahelps@gmail.com). In the first days after we established this link, 30 of you volunteered, and everyone requesting has been paired with a neighbor to help. When you have other suggestions for ways SHHA can help, have resources to offer, or tips to pass along, please send those to the same email. The more we can all do now to avoid spreading the virus, the more lives will be saved, and the sooner our country can return to normal.

During this shelter-at-home time, SHHA membership dues have continued to come in steadily, with over 215 new and returning members who mailed checks or joined through the website [shha.org/membership](http://shha.org/membership), 21% of whom have selected automatic renewal. Packets were mailed to all homes; if you did not get one, please ask [shhamembers@gmail.com](mailto:shhamembers@gmail.com) or go online and renew or join now. The work of SHHA continues with the bulletin publication, website, agency liaison, cell service advancement, traffic safety, and more. Although we hope to be able to gather together this summer, we continue to plan for alternative ways to serve each other, as well as exploring location alternatives to the Community Center during renovation. We need strong membership to continue to provide those benefits and services. The Community Center renovation is the main focus of the Sleepy Hollow Charitable Foundation, and the impacts to the project have been challenging. Services at County agencies are severely limited and our contractor is assessing its operational capabilities. Clearly, the changed economic situation affects our planned fundraising campaign. Just prior to the CV outbreak in our

country, the Foundation, with the agreement of the SHHA, was poised to sign a contract with our contractor, Schalich Brothers Construction, and to expedite early work. We were close to filing responses to the County for a full building permit. We were ready to launch a well-planned 2020 fundraising campaign. We had the support of generous private lenders from within the community to bridge the gap between available funding and total project costs. And, we had planned and announced an historic Ground Breaking celebration. But all of that changed in what seems like a blink of an eye. In the face of the economic conditions and uncertainties ahead of us, the Foundation is using the slowdown to rethink how to accomplish the renovation in a phased approach, funded initially by cash the Foundation now has on hand. Any pledged or new gifts that come in will add importantly to what we can accomplish this year. We will also look to inspire community volunteerism for those elements of the work that lend themselves to a "do it yourself" execution. However, commitments to spend will not exceed cash on hand until the potential for active fundraising and private lending sufficiently improves. As the scope of Phase One is worked out over the next few weeks, we will share details with everyone by email, website, and in other ways. Future phases will be based on reasonable expectation for new gifts and loans, plus community volunteerism or specialized funding. We are committed to prioritize the space and features needed by the Sleepy Hollow Fire Protection Board, from day one a vital component of the project; and to build a warm and welcoming place for gathering, relaxing, exercising, playing, working, learning, all close to home. By communicating and helping each other, we will get through this and once again experience the special quality of life in Sleepy Hollow. Thank you to everyone for your support and understanding.

*Scott Hintergardt, SHHA President*

*Jan Blackford, SHCF President*

## News & Notes from Supervisor Katie Rice

### Current Reality of Sheltering in Place and COVID-19

Dear Sleepy Hollow Friends and Neighbors, We are in our second week of the Shelter-in-Place order. I hope you and your family are doing okay, maybe even finding some silver linings in this never imagined reality we are living today. A week ago, we were thinking basic best hygiene, today we are being asked to limit our activities to only the most necessary, to avoid contact with others as much as possible, and prepare for weeks of living life this way. Happy gatherings, celebrations, more somber goodbyes, the annual events, the major milestones of life that bring us together will have to be marked, celebrated, memorialized in different ways during this time of social distancing. But as we are all discovering, there are ways to connect, to share, even to celebrate, without being together in the same physical space.

This will be a marathon, not a sprint— for everyone. One we need to prepare for, respond to, and adapt to as individuals, as families, and as members of the larger community. We are going to need to look out for one another, helping where we can, asking for help when we need it. And one day, hopefully not too long from now, when we can gather, the power of being together will be just that more meaningful.

Sharing below some updates from the County as we respond and adapt to COVID-19, and a couple other messages as well. For anything touched on here, or anything else, please never hesitate to contact me. (Or stop me on the street — but stay six feet away; I'm seeing a whole lot of new faces on my walks around the Hollow!)

#### Some County Updates, but First:

If you have not signed up for Marin County Covid-19 updates, please do so now at <https://coronavirus.marinhhs.org/subscribe>. The covid-19 website is <https://coronavirus.marinhhs.org/> and is being updated daily with newest information related to the Coronavirus in Marin, including a comprehensive FAQ sheet answering the myriad of questions being asked by residents regarding the virus, the Shelter-in-Place order, and more.

The County has begun taking steps to blunt the economic impact the coronavirus is having on our community, with a priority focus on our most disadvantaged, our most physically and economically at risk while we wait for state and federal government action and programs to kick in. County actions include: BOS just passed a temporary eviction moratorium to prevent evictions for residential and commercial tenants that are related to loss of income from the COVID-19 until May 31, 2020. The proposal would apply to all cities, towns, and unincorporated areas of the County.

We have also partnered with the Marin Community Foundation to create a \$1 million dollar fund specifically to assist our most economically vulnerable residents, seniors or others needing assistance accessing meals, Wi-Fi access for economically disadvantaged students, and establishing emergency child-care for health care workers and emergency responders towards ensuring that this critical workforce has options for childcare and family support so they can keep working.

Click on <https://tinyurl.com/r92s97c> to view more information on March 24 BOS agenda. Much of county work, programs and services delivered by the County continues, all-be it in somewhat different form. The goal is to keep our employees and the public as safe as possible while delivering vital services, supporting residents, keeping the wheels of government functioning. Many employees are teleworking, most of our front facing/ counter functions have been modified to allow for social distancing and/or via phone appointment, virtual inspection, via email or conference call. For a complete run-down of county department operations, visit <https://tinyurl.com/syp48n5>. Or call my office with questions.

#### Be Aware of Scammers

While most of us step up, pull together, and help one another during times of crisis, there are people who do just the opposite, prey on/take advantage of times of stress and uncertainty to trick/scam the unsuspecting. By way of example: PG&E has asked us to share that they have reports coming from customers regarding scam email and phone calls by people representing themselves as PG&E reps. The modus operandi for these PG&E

scams not unlike what other scammers are doing. The phone caller or emailer may or may not have specific names of customers, they may guess dollar amounts owed and disguise their phone number with caller ID as "PG&E" or "Pacific Gas & Electric." Customers should assume any threat related to a disruption in service for non-payment, is a scam. Legitimate entities will never ask for personal information or a credit card number over the phone. And generally, won't ask for you to reply to the email, or click through to another link. Let PG&E know if you have received such a call by calling PG&E at 1-800-743-5000 or visit [www.pge.com/scams](http://www.pge.com/scams). If you receive questionable calls or email from other utilities or service providers (credit cards), contact them directly using numbers provided by their official websites or other communications.

#### Talking Toilet Paper (and I'm not talking about hoarding!)

Everyone's home and everyone's doing a lot of sanitizing, using disposable wipes as if they owned stock in Clorox. All good, unless that wipe gets put in the toilet. Our sanitary districts across the county are reminding all residents of the importance of only flushing toilet paper down the toilet. Sanitary wipes marketed and sold as "flushable wipes" can severely impact the sewer pipes in your neighborhood and cause blockages and overflows into your home. Paper towels, disinfecting wipes, flushable wipes, and all other materials besides toilet paper should always be disposed of properly inside of a trash container. The sewer system is not designed for thicker wipes and paper products.

If you're not convinced yet, and seriously bored, watch the following video to learn more: <https://www.youtube.com/watch?v=YMR7iG1i8I>

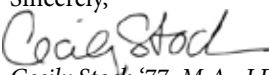

**Dear Sleepy Hollow Neighbors,**

Along with other schools throughout California, San Domenico has moved to a Distance Learning Plan in order to slow the spread of the novel coronavirus and reduce the number of individuals impacted by this public health crisis. In order for this to be effective, it must be accompanied by social distancing tactics by every member of this community.

To best protect our Resident Faculty, Boarding Students, and communal health, Marin Public Health determined that San Domenico's campus and facilities must temporarily close to ALL non-essential community use. This includes the mountain bike trails leading down to campus, pathways and roadway for dog walking, tennis courts, fields, playgrounds, gym, pool, biking on to campus etc. We understand that use of our campus is one of the benefits of living in Sleepy Hollow and we did not make this decision lightly. The gate will be closed and security will be present.

Today and in the coming weeks, we must all work together to reduce the burden on our healthcare system and slow the spread of COVID-19.

We thank you for your cooperation and support during this uncharted time.

Sincerely,  
  
 Cecily Stock '77, M.A., J.D. Head of School

**Dear Sleepy Hollow Tennis Club Members,**

We have been informed that San Domenico School has closed the campus to use by the local community. This includes tennis, walking the paths, hiking and biking. We will keep you informed but for now we will need to reschedule or cancel the April 4th Men's Tournament. We will need to wait and see if the May 16th Mixed Doubles Tournament will still be feasible.

Please stay safe and healthy during these trying times. I look forward to reuniting our community soon.

*Chris Staskus, SHTC President, 650-799-2006*

**Dear Sleepy Hollow Swim Team Members,**

As we are two full weeks into "Shelter in Place," most of us have settled down into a routine at home and enjoying the walking and biking trails in our area as well. With the schools closed till at least the end of April, the Sea Lions won't be able to return to the pool either. We have weekly meetings with the Marin Swim League in the hope we can still have a shortened swim season—if we are able to get our kids back in the water. Therefore we all should practice Social Distancing and stay home as much as we can for the health and safety of each other. Let's do our part to flatten the curve. We can do this together and bring our swimmers back in the pool!

*Anne-Marie Kosteci  
 President SHST, Inc.*

# Did You Know...

**The spring market is heating up, even with the disruption we are experiencing with COVID-19.**

**FEBRUARY ACTIVITY**

5 ACTIVE listings; 4 new in February.

2 CONTINGENT: 1 on the market 30+ days; 1 on for 60+ days.

2 PENDING: Both listed over \$2MM: 1 went in contract after 3 days on the market; the other after 9 days on the market... which goes to show that the market is HOT for properties that are desirable in Sleepy Hollow.

2 SOLD: 1 in 20 days and 1 in 50 days.

Thinking of a making a move? I'm happy to talk best strategies.

## Renew/Join SHHA Now

Memberships in Sleepy Hollow Homes Association (SHHA) keep Sleepy Hollow working, speaking, and playing for the benefit and enjoyment of all residents of all ages. Thank you to all of you who have already joined the SHHA for 2020!

Now is the time to renew or join the SHHA and show your support for Sleepy Hollow! If you haven't received one of the email reminders you can visit [www.shha.org](http://www.shha.org) to start the process or send a check to 1317 Butterfield Road, San Anselmo, CA 94960.

SHHA annual dues are \$280, \$245 for seniors 65+. Residents can add a Community Pool membership for just \$250, \$200 for seniors. The pool opens for family swim Memorial Day weekend.

We encourage everyone to visit the site to refresh your sense of the benefits to you and to the community when you join the SHHA. Work continues through the shelter at home and the renovation.

Please contact us at [SHHAwebsite@gmail.com](mailto:SHHAwebsite@gmail.com) with questions or if you need a paper membership form.

*Spencer Adams, Hayley Mullen, Membership*

### MARK YOUR CALENDARS

**SHHA BOARD MEETING**

April 2, 7:00 p.m.

by teleconference

# Defensible Space for Home Protection

by the Sleepy Hollow Fire Protection District

**Defensible Space** is the buffer you create between a building on your property and the grass, trees, shrubs, or any wildland area that surround it. Defensible Space is essential to improve your home's chance of surviving a wildfire.

**Defensible Space** will help slow or stop the spread of wildfire and protect your home from catching fire – either from direct flame contact or radiant heat. Defensible space is also important to help protect firefighters when they are defending your home.

**Defensible Space** means a healthy, well maintained landscape. Native plants and trees, and healthy habitat for birds, animals, and pollinators can and should be part of your defensible space. Creating defensible space does not mean you need a ring of bare dirt around your home! Through proper planning and routine maintenance, you can have both a beautiful landscape and a fire resistant home.

Your home may be the most valuable investment you ever make.

If you live in a high-risk fire hazard area, protect against the chance of losing that investment by creating defensible space and “hardening”

your home with fire-resistant construction materials and design. **ZONE ZERO** extends 0’-5’ from your house. It’s the area closest to your house, including plants, decks, outdoor furniture, and the outside walls and coverings. This area is most vulnerable and should be more aggressively maintained for fire resistance. There should be ZERO combustibles in this zone!

- Remove combustible outdoor furniture. Replace with metal or non-combustible varieties.
- Replace jute or natural fiber doormats with heavy rubber or metal grates.
- Remove or relocate all combustible materials including garbage and recycling containers, lumber, trash, and patio accessories.
- Clean all fallen leaves and needles.
- No vegetation is recommended within 5’ of any structure.
- Remove tree limbs that extend into this zone. Fire prone tree varieties should be removed if they extend into this zone.
- Do not store firewood, lumber, or combustibles here, even (especially) under decks or overhangs. Move stored combustibles inside or at least 30’ from any structure.
- Use only inorganic, non-combustible mulches such as stone or gravel.
- Hardscaping is strongly recommended around the base of structures.

## NEWS FROM SAN DOMENICO

In order to best protect our Resident Faculty, Boarding Students, and communal health during this novel coronavirus pandemic, Marin Public Health determined on that San Domenico’s facilities must currently close to community use. This includes the trails, fields, pathways, road, playgrounds, gym, tennis courts, and pool. Thank you for your cooperation, understanding, and support during this uncharted time. Questions? Contact us at [contactus@sandomenico.org](mailto:contactus@sandomenico.org).

# SHHA Minutes

## March 5, 2020

March 5, 2020. Call to order: 7:30 p.m.

**Attending:** Scott Hintergardt (President), Board members Jan Blackford, Aya Andrews, Spencer Adams, Ann Wagner, David Baker, Matt Testa, Hayley Mullen. Also attending: Luke Argilla, Bradley Johnson.

**Swim Team Contract:** Scott Hintergardt updated the Board on his efforts to work with the Sleepy Hollow Swim Team to accommodate their program during clubhouse construction. Completion of the pool was managed by Steve Knox, in compliance with County guidance and Swim Team's expressed needs. Schlich Brothers installed the construction fence and worked with Steve to arrange a drive through from Butterfield for safe pick up and drop off.

**SHHA Membership Update:** Spencer Adams, vice-president and director heading up membership recruitment efforts, reported membership enrollment lagged slightly behind last year's schedule. 26% of those signing up opted for the recurring membership option, which automatically renews membership annually. The Board discussed plans to follow up to encourage both new and returning memberships, and ideas to drive engagement outside the immediate Sleepy Hollow community, such as a more inclusive name for the current "non-resident" pool membership.

**Community Center Project Fundraising and Ground-breaking Event:** It was agreed to launch the 2020 fundraising with the groundbreaking event, being scheduled for March 14. The Board discussed fundraising strategies including tiers of giving and types of recognition for donors. It was decided that Jan Blackford and Aya Andrews will act be lead organizers of the groundbreaking event, coordinating team leaders who will prepare and manage stations for hands on exploration and direct Q and A of the plans and finish materials, construction site plan and schedule, opportunities for activities at the new center including fitness, relief and recovery features, play area potential design, resilience features including solar panels. Spencer Adams and Luke Argilla will helm the fundraising efforts and Pete Mayer, Bradley Johnson, and Lorraine Faraese will be available to discuss project financing.

**Cell Phone Service Update:** Pete Mayer reported that Verizon engineers had visited the San Domenico campus and found several promising sites for a "macro" cell tower installation. This installation would likely be complemented by several additional "micro" installations to ensure coverage throughout the neighborhood.

Adjourn until April 2, 2020

**Little Mountain Preschool is a multi-age program, ages 3-5.**  
 Our hours are 9am-1pm with an early morning drop-off program. **MORNING MONARCHS**, 8-9am. **AFTERNOON EXPLORERS**, 1-2:30pm (optional and additional fee). Our yard is on three quarters of an acre! Children learn an appreciation for nature, discovering insects, animal tracks and more! We plant seasonal vegetables and fruit and eat what we plant. We ride bikes, run, climb hills, large rocks, a structure and slide on slides. We cook and have woodworking weekly. Daily, we engage in story time, fine motor and large motor activities, science, music, dramatic play and art activities. Our professional staff guides each child individually as needed and assists with building their confidence, social emotional skills and encourages them in all areas of curriculum with the challenges of critical thinking.

**COME FOR A TOUR! Email or call: 415 847-8064 / 415 488-8018**  
**admissions@littlemountainpreschool.org**  
 Visit our website: [www.littlemountainpreschool.org](http://www.littlemountainpreschool.org)

## MMWD: Marín Water and the Coronavirus

Jack Gibson, MMWD Board Member  
March 19, 2020

As you can probably guess, I am writing this Home-owners item from home. Like most people I am observing the Shelter In Place directions. But in this time of crisis it is important that I, and others, at the Water District get the word out about the safety of our drinking water.

With the recent news regarding coronavirus the District wants the public to know that this virus has no impact on the safety of your drinking water. Our water supply is locally sourced, with the majority of it coming from our protected Mt. Tam watershed. Your water is treated and routinely monitored to ensure there are no viruses or pathogens. We have plans in place to ensure that, under any scenario, we will continue to provide you with safe, high-quality drinking water.

The Water District conducts more than 120,000 water quality and process control tests per year to ensure your water is safe to drink. Water testing for MMWD is almost a constant ongoing process. Tests are conducted from the time the water is collected in our reservoirs on the watershed, to the time the water arrives at your faucet. This includes testing in the lakes, at the inlet and outlet of the treatment plants, at key locations in the distribution system, and some at customers' taps. That process continues.

**resilience  
connection**

**"...this  
virus has  
no impact  
on the  
safety  
of your  
drinking  
water."**

Following the directives of public health officials the daily routine at the District has been altered in a rational, and thought-out manner. Internally an Emergency Operations Center (EOC) has been created consisting of a team of senior staff members. The rapid stream of information is immediately centralized and distributed to operational points of activity. Following the directions of Public Health Officials gatherings are being canceled or postponed, employees are working from home, and offices have been closed. About 50% of the employees are field crews or "hands on" technical staff who are not able to work at home, but who are carrying on, but only under extraordinary safety procedures. The Corte Madera main office is closed, as is the Sky Oaks office, but the watershed remains open. Customer Service activities are continuing by email and telephone.

Under the Governor's Executive Order which grants Brown Act flexibility, the Board of Directors is continuing to protect the public's interest. Until we are all past this crisis, the Board meetings are following the Social Distancing guidelines. Meetings that are not time-sensitive are being postponed, regular board meetings are being successfully conducted as virtual meetings, including procedure for simultaneous public.

As disruptive as this public health crisis, I am proud to share with you the positive, cooperative team spirit I am seeing at the MMWD.

## Spring Has Sprung – Time to Trim!

Well since we all have a little more time on our hands, let's put our hands to good work! Property owners are required to maintain vegetation clearance adjacent to roads and driveways, horizontally and overhead. Please trim foliage around your home that may be causing an obstruction of a

sign, a walkway, or overgrowing onto the street making it difficult to see pedestrians, pets and wildlife while causing vehicles to veer. Take a stroll around your property, step back and see if there's anything you could trim or cut back. If your home is on a corner please walk/drive around your block to ensure all is clear. Some neighbors might not realize there are concerns with their vegetation or perhaps could use a helping hand - give them a call and see if you can do it for them. Let's all pull together and keep our community safe and beautiful!

## Hidden Valley School Closure and Continuity of Learning

The latest data from public health officials make it clear that the spread of COVID19 virus has the potential to overburden our community health resources and continued social isolation is necessary to slow the spread. In accordance with the health and safety of all, ALL RVSD school campuses are CLOSED. Thank you for showing your care for others by social distancing.

### New Student Registration 2020-21

New Student Registration for the 2020-21 School Year is now open! See [rossvalleyschools.org](http://rossvalleyschools.org) for information about Student Registration.

**Sleepy Hollow Presbyterian Church**

Home of the Justice Garden and Mexico Mission 2021  
A Welcoming, Caring Community  
Building Hope Through Service to the World  
Every Sunday morning at 9:30 a.m. on Zoom (see below)  
Inspiration, Music, Friendship

*A Message from Pastor Bev to our Neighbors:*

During this challenging time, we are gathering on Sunday mornings at 9:30 a.m. from our homes on our computers, iPads, or phones for an inspiring message and prayer, and for the support of our community. Please email our office at [shpchurch@comcast.net](mailto:shpchurch@comcast.net) if you'd like to receive a Zoom invite. Videos of our service are available on YouTube and Facebook.

We've had to cancel this year's Mexico Mission trip, but we are committed to finding new ways to be of service and build community as we all go through this challenging time together.

**Tomato Plant Farmstand:** We remain committed to our mission of feeding the hungry and supporting the most vulnerable. We are tending our garden to produce food for the hungry. On Saturday, April 11 we'll have a Tomato Plant Farmstand at the church from 10:00 a.m.-3:00 p.m., maintaining social distance. We will have 15 different varieties of tomato available, varieties that have been proven to flourish in the Sleepy Hollow micro-climate. Please walk up to the church and donate \$5 per 4 inch plant.

- We are here to serve, to bring peace and hope, and to love our neighbors as ourselves. BLESS YOU in this challenging time — Bev

*MARCH 2020 PRINT/DIGITAL. Info about the Sleepy Hollow Homes Association at [www.shha.org](http://www.shha.org)*

**We are in this together and  
together we will grow stronger!**

Please reach out for real estate concerns, ways to help  
our community, local resources or to just say hello!  
We are here for you in ways big and small!

- Move your files to a new computer
- Remove malware & viruses
- Set up protective backups
- Solve problems caused by "updates"
- Advise on purchasing new devices
- Fix or connect printers and scanners
- Sync your mail, contacts & photos across tablets, phones & computers
- Answer all "How To" questions & teach new procedures

I'm especially good with older folks

who need patient instruction! And my rate's very fair – only \$45/ hour!  
Contact Dennis Crumley at 415-706-7396 or [befixed@gmail.com](mailto:befixed@gmail.com)

**FREE! COMPOSTED HORSE MANURE**  
for mulching and soil amendment. Easy access; bring own shovel. Call the Bertos at 415-454-2923.
