## February President's Letter

I am excited to announce that construction is underway with completion of the pool access corridor, clearing areas for construction, and interior prep work. Construction fencing will be installed the week of February 24th just in time for the beginning of swim season. Safety is our TOP priority for this project, so please observe NEW signage and drop-off and pick-up proto calls.

The lawn areas and brick courtyard, snack bar and storage areas, and locker rooms will be fully accessible through Labor Day.

We received feedback on the Building Permit submittal and are now responding. Early work not requiring a permit will continue to occur. We will start full renovation the moment we have the Building Permit. Final contract language and pricing is being confirmed with Schalich Brothers Construction and several sub-contractors in response to our questions and plan clarifications.

**In early March we expect to have a signed contract and be able to reliably peg the full start date.**

I would like to recognize Jan Blackford, Dave Grubb, Luke Argilla, Steve Knox, Spencer Adams, Mark Sarkasian, Matt Testa, Jessica Fairchild, Kai Broms and Schalich Brothers Construction for their extra work with us to be at this point. A special thanks to Steve Knox and Dave Grubb for their efforts in designing and overseeing the construction of the corridor and for their commitment to this project.

Also, thank you to Mark and Julie Anderson, Anne-Marie Kostecki, Thad Reichley, Justin Hovey, Melissa Wahlstrom, Alex and Jeanine Dixon and other swim team parents and swimmers for their help in organizing and cleaning the grounds and storage areas

Laslty, thank you to Reinhard Ludke and the Sleepy Hollow Tennis Team for pledging to

help build the CERT storage and playground.

Please save March 14, Saturday 4:00 to 6:00PM, to participate in an Open House and Ground -Breaking ceremony. Watch for a confirmation of the date and details about this up -close look (and touch) into the project, Q&A, and toast to the past and the future.

## Round 3 Fundraising Campaign

We are grateful to the many who are fulfilling their pledges made in 2018 and 2019, and those who have already stepped up with new gifts in 2020. Luke Argilla and Spencer Adams are co-chairs of the round 3 fundraising committee. We will "officially" launch our fundraising campaign at our upcoming ground-breaking ceremony.

## Membership Drive Is ON!

Thank you to all the SHHA members who joined or renewed their membership! Of the 94 families that have joined or renewed their membership, 30% have chosen the annual recurring membership, which auto-renews each year. This make membership renewals easier for the families and the SHHA. Let us know if you have any questions about this option and please try and renew or join by March 15th, 2020.

Memberships in Sleepy Hollow Homes Association (SHHA) keep Sleepy Hollow working, speaking, and playing for the benefit and enjoyment of all residents of all ages. Now is the time to renew or join the SHHA and show your support for Sleepy Hollow in 2020! If you haven't received one of the email reminders, you can visit [www.shha.org](http://www.shha.org) to start the process or send a check to 1317 Butterfield

## News & Notes from Supervisor Katie Rice

### All About 2nd Units

Ever thought about adding a second unit to your property? Is it time to convert a portion of your home into a separate living space for an aging parent or rebounding child? New state laws that went into effect as of January 1 combined with modifications to local ordinances will make it a bit easier, quicker, and less expensive to create a second unit (and junior second units). The new state laws supersede local zoning and are aimed at incentivizing the creation of much needed affordable housing and/or making homeownership more affordable in high housing cost areas like Marin. The new laws offer significant building permit fee reductions and in some instances a waiver of costly utility hook-up charges.

Before getting into the details, a briefing on second unit nomenclature — often called in-law units, backyard cottages, or granny flats, second units in planning parlance are called Accessory Dwelling Units (or ADUs) and they come in many different forms. ADUs can be attached or detached from the main residence. They can be a converted garage or a completely new structure in a backyard. ADUs must have a separate entrance, full kitchen and bathroom, and in Marin County if over 1000 square feet, must have two bedrooms. A second cousin to ADUs are JADUs (or Junior Accessory Dwelling Units).

JADUs are units created within the footprint of an existing single-family home. They must have their own separate entrance, mini-kitchen/wet bar, but may share a bathroom.

I don't expect a surge in development of new second units, nor do I think second units will solve our housing crisis. But every new unit created in our community potentially solves a housing crisis for a teacher, a young couple, a single parent, or a long-time renter who has lost their housing. Second units are a great solution for creating separate living space for onsite supportive care, can be the answer for "downsizing" without moving out of the community and augmenting one's income, and for some may actually make homeownership possible.

New ADUs/JADUs still require permits, but in many instances, those permits must be ministerially approved. Here are some of the highlights of new ADUs and JADU laws:

#### Streamlined approval process.

ADUs/JADUs created through conversion of existing spaces or new construction that are no larger than 800 square feet, have side and rear yard setbacks of at least four feet, and do not exceed 16 feet in height, must be ministerially approved within 60 days and can only be denied for lack of water, sewer or roadway impact.

**Bedroom requirements.** ADUs greater than 1,000 square feet must provide at least two bedrooms.

**Parking requirements.** No new parking required when an ADU is created through a garage or carport conversion or the new unit is within ½ mile of public transit.

**Short Term Rental.** Any ADU created or legalized through the exemption process may not be used as a rental for less than 30 days.

#### Owner-occupancy requirement.

Owner occupancy is not required in newly constructed ADUs or the primary residence

for units created between now and January 1, 2025. Owner occupancy is required for JADUs.

**County fee waivers.** The county will reduce or waive building and permit fees from \$5 – 10K for new units designated for lower, moderate income tenants and to legalize unpermitted units.

**Utility connection fees.** New construction of attached ADUs and ADUs created through the conversion of existing residential structure are eligible for exclusion from utility connection fees (MMWD, Sanitary District).

I encourage anyone who has been thinking about creating a second unit to learn more. Go to the staff report from the Board of Supervisors January 28 meeting, item 13 at <https://www.marincounty.org/depts/bs/meeting-archive>; visit [www.marincounty.org/makeroomformarin](http://www.marincounty.org/makeroomformarin), or call my office at 415-473-7825.

### Storefront Advertising Survey

The Community Health and Prevention Program with the Marin County Department of Health & Human Services is conducting a survey about the retail environment and wants to know your opinion about matters related to advertising in stores in your community.

The placement and advertisement density, and the types of products that are promoted influence us all, and have the potential to impact our health. Your input is therefore vital to the efforts to improve the health of our community. The survey is expected to take approximately 5 minutes. Your participation in the survey is voluntary and your answers will be kept confidential.

<https://www.surveymonkey.com/r/StorefrontAdvertisingMarin2020>

### Membership Drive Is ON!

*Continued from page one*

Road. SHHA annual dues are \$280, \$245 for seniors 65+. Residents can add a Community Pool membership for just \$250, \$200 for seniors. When you renew or join on the website, you can also choose an annual recurring SHHA membership.\*\* If you choose an Annual Recurring membership, your credit card will automatically be charged annually. You will also save \$10 off your SHHA membership. We encourage everyone to visit the site to refresh your sense of the benefits to you and to the community that your SHHA dues make possible. And watch for emails and postal membership package coming soon. Please contact Spencer Adams or Hayley Mullen at [SHHAwebsite@gmail.com](mailto:SHHAwebsite@gmail.com) with questions.

### Interested in Traffic Safety?

Safe Routes is holding focus groups of adult and teen drivers in the Hollow to get input about safety concerns along the Butterfield corridor specifically regarding distracted driving. We'd love to have your participation – the only qualification is that you have a driver's license! The focus groups will be held sometime in March on a weeknight evening in the Sleepy Hollow area. If you're interested, please contact Nancy at [nvernon@marincounty.org](mailto:nvernon@marincounty.org).

## Pulsepoint Respond and ALERTWildfire Can Help Our Community

by the Sleepy Hollow Fire Prevention District

As many of you know, if a person suffers a sudden cardiac arrest event, the sooner CPR and defibrillation are started the more likely the individual is to survive. Fifty-seven percent of U.S. adults say they've had CPR training, and most would be willing to use CPR or an Automatic External Defibrillator (AED) to help save a stranger's life. Yet only 11% say they've used CPR in an actual emergency – that's a number we can increase together.

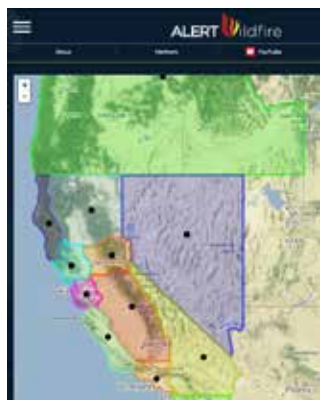

If you are trained in CPR, I strongly recommend that you download this free application at PulsePoint.org or through the Apple Store, etc. Please contact Rich Shortall ([rich\\_shortall@att.net](mailto:rich_shortall@att.net)) if you would like to receive free CPR training. If we get enough residents interested, the Sleepy Hollow Fire Protection District will hold a class.

### ALERTWildfire

Another interesting resource can be found at [alertwildfire.org/northbay](http://alertwildfire.org/northbay).

In 2018, the Marin County Fire Department partnered with PG&E and ALERTWildfire to update and upgrade the Counties Fire Detection Cameras. The system provides on line access to state-of-the-art Pan-Tilt-Zoom (PTZ) fire cameras and associated tools to help firefighters and first responders: (1) discover/locate/confirm fire ignition, (2) quickly scale fire resources up or down appropriately, (3) monitor fire behavior through containment, (4) during firestorms, help evacuations through enhanced situational awareness, and (5) ensure contained fires are monitored appropriately through their demise.

When you go to the website, you will be able to select from one of 38 cameras providing spectacular coverage from mountain peaks of the entire North Bay.

### PulsePoint Respond

When a life-threatening call comes in our emergency responders will be ready. But what if someone was already at the scene, applying life-saving CPR and defibrillation until they arrive? With a new mobile phone application called PulsePoint Respond, the 911 dispatch center immediately alerts CPR-trained individuals about nearby cardiac arrest events through the free PulsePoint Respond mobile app. If the cardiac emergency is in a public place, the location-aware application will alert users in the vicinity of the need for CPR simultaneous with the dispatch of advanced medical care. The application also directs these potential rescuers to the exact location of the closest Automated External Defibrillator.

The Pulse Point Respond application also allows you to view all active and recent fire incidents in Marin County. For example, I am looking at my application as I write this article and I see that firefighters are responding to a traffic collision in Novato and medical emergencies in Mill Valley, San Anselmo and San Rafael. The exact address is given for each incident and it is mapped. I also see a list of the 90 incidents that were dispatched for Marin County Fire Departments in the last 24 hours.

## Sleepy Hollow Tennis Club

Did you make a New Year's resolution to add more exercise to your weekly routine and now find yourself starting to slack off?

Let our Sleepy Hollow Tennis Club help!

Here are seven great reasons to join the SHTC:

1. A friendly neighborhood playing experience for all levels
2. Six beautifully maintained courts nestled among the oaks and redwoods
3. Individual and group lessons by highly experienced club pro, Rob Jessen
4. Men's and women's drop-in tennis on Saturday mornings as well as member scheduled games over the weekend
5. Weekly use of the courts and club ball machine (except for San Domenico School priority use)
6. Fall and Summer mixed doubles tournaments and a men's tournament as well
7. Low annual membership fee, just \$350 for the entire family! (No monthly dues)

Please visit our website at [www.sleepyhollowtennis.org](http://www.sleepyhollowtennis.org) or contact SHTC President Chris Staskus (650) 799-2006.

*SHTC members enjoying weekend drop-in tennis play.*

### NEWS FROM SAN DOMENICO

You are invited to join us at these upcoming events:

- A talk with Christine Carter, author of *The New Adolescence*, on March 18 at 7:00 pm | Hall of the Arts
- The 2020 Middle School musical, "Matilda" on March 26-28, 7:00 pm; March 29 at 3:00 pm | Hall of the Arts

This hit Broadway musical is based on a children's book by Roald Dahl.

## SHHA Minutes, January 16 & February 6, 2020

### BOARD AND ANNUAL MEETING AGENDA

#### JANUARY 16TH, 2020

A quorum of the Board conducted the necessary business, there being no members there other than the incoming new Directors.

**Directors and Officers.** President Scott Hintergardt called the meeting to order at 7:00 p.m. and introduced the nominees for Director. The following were elected by acclamation: To the Board for a first 2-year term: Aya Andrews, David Baker, Hayley Mullen, Lauren Thornhill. To the Board for a returning 2-year term: Scott Hintergardt, Spencer Adams, Pete Mayer, Matt Testa. They join Jan Blackford, Francois Hedouin, and Ann Wagner as returning directors serving the second year of their current terms. Officers elected for one-year terms by acclamation are: Scott, President; Spencer, Vice President; Pete as Corporate Secretary; Jan as Treasurer.

Scott led discussion of Director roles in 2020 including expectation each Director be responsible for agreed responsibilities and recruit additional residents to help plan and carry out actions throughout the year. Haley and Spencer co-chair membership and website; Pete responsible that minutes are taken and published, ensure proper form of resolutions, oversee legal matters; Pete, Matt, and David coordinate appropriate building and grounds management; Aya activities/social leader, recruit other Directors and residents to lead specific activities; Lauren and Jan liaise with Sophie Waldron, pool staff manager for family swim program; Anne, Francois, and Lauren support fundraising efforts for gifts to the SHCF at SHHA events and in cooperation with the SHCF. All Directors to be involved in July 4<sup>th</sup>, other social and general activities throughout the year, membership, fundraising and representing the Community Center renovation to the community.

**Finance and Budget.** Pete presented preliminary 2019 financial report and proposed budget for 2020. SHHA total revenue \$275,318, up from \$269,314 despite fewer pool members (we believe due to early season uncertainty about locker room availability). Net income \$57,392, up from \$7,758, after operating expenses including rent to SHCF for use of entire site as needed for all SHHA activities including summer family swim. SHHA cash on hand \$306,345, up \$71,066 from prior year.

Pete presented, and Board approved, 2020 revenue budget \$240,850 and net loss of \$4,480. Revenue budget is down due to possibly lower pool memberships during renovation, although the pool will be fully open with locker rooms, snack bar, and lawn areas. Expenses are up due to adjustments in 2020 to reclassify pool use agreement payments to the SHCF. Jan and Pete advised the cash position and outlook for SHHA is strong, able to withstand uncertainties during construction and unusual expenses should they arise.

**Membership.** Spencer reported 2019 pool membership numbers were better than had been budgeted for 2019, but down from actual 2018. He supported the budget assumptions for memberships in 2020, described plans to recruit SHHA memberships through enthusiasm for the renovation, and agreed to recruit pool memberships more aggressively if they are not coming in on budget or better.

**San Domenico Transportation Management Plan.** Scott reported the San Domenico traffic plan amendments will remain

I am completely invested in the community we share together.

COMPASS

posted on the website longer and a further vote will not likely be held until February or later. Comments have been heavily in support of the amendments, and nearly all of the few critical comments have been about the penalties. We are discussing penalties with the School and also hearing the concerns of the County about some aspects of the agreement as proposed. Any changes to the negotiated agreement will be shared with the community before a vote is taken.

**Swim Team and MAA, Inc.** Scott also reported active collaboration with the Swim Team is underway about the schedule and physical impacts of the renovation construction. We have negotiated with our contractor to defer renovation of the locker rooms until after Labor Day, so the Swim Team and family swim season will have full use of the locker rooms, lawn areas, brick courtyard, and snack bar. Separate access will be through a corridor from the street to the pool area, and a drive through lane for safe pick up and drop off to the corridor entry gate will be set up.

Meeting adjourned at 8:30 p.m., until February 6, 2020, 7:00 p.m.

### BOARD MEETING AGENDA FEBRUARY 6, 2020

**Open Time for Residents' Comment:** Priscilla Pittaglio spoke about the extreme need for improved cell service and volunteered to work with the Board and other residents toward that goal. In Pete Mayer's absence, Scott assured we are actively on this in concert with San Domenico, SHFPD, Katy Rice's office, and currently Verizon for feasible installation of 4G microcells or macro tower combination. In addition, planning with SHFPD for Community Center features includes emergency communication and power back up. Pete will follow up with Priscilla about how she can help and keep her informed of progress.

*Continued on page six*

## MMWD: Is Recycled Water the Future?

Jack Gibson, MMWD Board Member  
February 17, 2020

As of early February the water supply for the Marin Municipal Water District looked good. Storage in our seven reservoirs was at 113% of the average for that period. Two reservoirs, Lagunitas and Phoenix, were one hundred percent full with Alpine and Bon Tempe not far behind. That's a comfortable water supply to begin a new year, especially for a district like ours, which relies primarily on annual rainfall to furnish the water for urban use and irrigation.

Now, only seven weeks into the new year and the reports we are getting predict a dry year. The comfort level is disappearing. That's when we get realistic and start to analyze and appreciate the district's additional water sources. The focus picks up for water conservation, imported water from the Russian River, and our historical recycled water efforts.

In 1976-1977, as a drought relief effort, the district began a pilot plant with our partner, the Las Gallinas Valley Sanitary District, designed to produce recycled water for irrigation. That early effort demonstrated that recycled water was available when other sources were not. In 1981 a one million gallon a day filtration plant was completed at the Las Gallinas facility which produced 60 acre-feet annually for the close-at-hand McInnis Park and for highway landscaping.

### resilience connection

**“In 1976-1977, as a drought relief effort, the district began a pilot plant with our partner, the Las Gallinas Valley Sanitary District, designed to produce recycled water for irrigation.”**

That effort was soon expanded, and the even greater possibilities for recycled water came into focus. The district pioneered the expanded use of recycled water for non-agricultural purposes in northern California. Today, that system produces 650 acre feet of recycled water annually. The system alone has developed to 25 miles of pipe, three tanks and four pump stations. It provides specific use water supply for 332 customers, including commercial, residential, as well as schools, parks, and other government facilities. Beyond just landscape irrigation, recycled water serves a purpose for car washes, HVAC cooling towers, toilet / urinal flushing, commercial laundry services, and more.

Presently the existing system has the capacity to only serve a relatively small section of Marin County. It covers the areas around Northgate Shopping Center, the Civic Center, the Las Gallinas Valley neighborhood, and the vicinity surrounding those sites. However, recognizing the value of “drought proof water” the district has, over the years, completed several feasibility studies designed to determine the possibilities for recycled water in other areas of Marin. In possible partnership with other sanitary districts, such as Central Marin Sanitation Agency and the Sewage Agency of Southern Marin, the water district has plans that would bring recycled water to other parts of Marin including Peacock Gap Golf Course, the Canal Areas, San Quentin Prison, and ultimately the Bon Air area, College of Marin areas, and downtown Corte Madera.

## SHHA MINUTES BOARD MEETING AGENDA FEBRUARY 6, 2020, *continued from page five*

**San Domenico Transportation Management.** Scott called meeting to order at 7:50 p.m. and updated the Board on discussions with San Domenico about potential further changes to the Transportation Management Plan presented to the community December 17 and posted on our website under Safety, San Domenico. Discussion focused on recently expressed need for flexibility in temporary trip limits primarily for SHHA use of San Domenico facilities for meetings or events during the renovation of the old clubhouse, and the possible need to use San Domenico pool to alleviate crowding at the Sleepy Hollow Pool. For the most part these increased trip limits at the school entrance would not increase traffic on Butterfield, only extended travel from the Community Center at 1317 Butterfield to the school at 1500 Butterfield. Discussion continues on how to address potential flexibility without requiring another complete amendment process with the County and without SHHA agreeing in advance to any temporary increase. Also, the Board has begun discussions with the School to strengthen the negotiated penalties. No vote will be taken until agreement is reached with the School and changes exposed to the community for a reasonable review period.

**Swim Team Construction Concerns and Contract.** Scott reported agreement regarding access corridor, drop off / pick up arrangement, construction site, etc., and toward a contract for this year and beyond. Implementation of the corridor/drop off plans is

delayed due County decision to review. Completing the access and drop off and complete separation of the future construction area will therefore not likely be complete by first team use of the pool February 21, but as construction will not have started, regular access will continue until the new pattern is in place. When the corridor is ready (before construction can start), volunteers will be needed to “usher and educate” parents and swimmers arriving for practice to the new drop off and access.

**Treasurer's Report.** Jan updated the Board on revenue, expense on track for 2020 budget, and cash position in excess of \$310,000. She recommended and the Board approved the adjustment to revenue and cash to carry out the approved budget intent to reclassify the pool use lease for 2019 (\$25,500) and going forward as SHCF, and to authorize the payment to SHCF of the \$25,000 pledge approved in 2016 for the Community Center rebuild. After that, cash will be approximately \$250,000, still \$20,000 higher than this time last year. Some of the comparative increase is seasonal as non-resident pool memberships have been coming in earlier this year than prior years.

**Membership.** Spencer reported a strong start to memberships, especially non-resident pool members. More residents are choosing to join online rather than by paper form and check and about 25% of those choose automatic renewal. Membership packets with paper forms and reminders how to join on line are being mailed to all residents the third week of February. Labeled “Sleepy Hollow Resident to” reach every household.

Adjourn until March 5th, 2020 7:00 p.m.

**WEST COAST MORTGAGE CO, INC.**

Competitive programs and rates. Outstanding service and quick processing. Call me for all your real estate financing needs—refinance or purchase.

**WINDOWS, MAC, WIFI - SETUP, REPAIR, TUTORING**

Sleepy Hollow native with 20+ years of experience in Apple & Microsoft software (as well as routers and printers) will help you:

- Repair unresponsive computers or programs
- Speed up computers slowed by bloatware
- Fix wifi dead spots and poor Internet speed
- Move your files to a new computer

- Remove malware & viruses
- Set up protective backups
- Solve problems caused by "updates"
- Advise on purchasing new devices
- Fix or connect printers and scanners
- Sync your mail, contacts & photos across tablets, phones & computers
- Answer all "How To" questions & teach new procedures

I'm especially good with older folks who need patient instruction! And my rate's very fair – only \$45/ hour! Contact Dennis Crumley at 415-706-7396 or [befixed@gmail.com](mailto:befixed@gmail.com)

**FREE! COMPOSTED HORSE MANURE**

Little Mountain Preschool is a wonderful and cheerful setting that provides young children to develop a love of learning, confidence, self-worth, and respect and concern for other's in a calm nurturing atmosphere. Our goal is to provide a preschool experience that prepares and guides children for future success in school and life, allowing them to solve problems and be critical thinkers in a safe and loving environment. At our school, they are able to practice and develop social and emotional skills, be responsible individuals and make their own decisions based on their unique needs.

Please contact us for questions and tours at:

### The Sea Lions Are Back in the Pool!

This past weekend we spent some time getting the pool and surrounding area ready for the start of the swim season. We'd like to welcome all of our new and returning Sleepy Hollow Sea Lions! Our first day of practice was Monday, February 24! Please note that group practice times have shifted a little bit this year! Check our website at [www.sleepyhollowsealions.com](http://www.sleepyhollowsealions.com) for additional information.

We are working closely with SHHA to ensure that all of our practices can be safely held at the Clubhouse pool for the entire season. The construction area is fenced off so please do not enter the construction site under any circumstance! Enter the pool area through the normal gate and a protective walkway will lead you around to the snack bar area and pool. Due to scheduled start of construction of the clubhouse in March, we will be holding ALL of our Home Swim Meets this year at Drake High School with a 10:30 a.m. start time.

Now that swim practice has begun, please be aware of increased pedestrian traffic around the Clubhouse and drive carefully. Swim team parents – use your common sense while walking on and crossing Butterfield Road. Help teach our Sea Lions to be responsible pedestrians. When dropping your swimmer off at practice, please do not park in the disabled or emergency parking spaces. With construction going on this year, there is NO parking in front of the clubhouse; this will strictly be a drop off lane. Usual parking is still available along Butterfield Road where the pampas grass used to be. Also, please be courteous to our neighbors when parking – do not block driveways, gates and/or mailboxes. We look forward to another great season this year – keep on kicking bootyakum!
